

KATHY ALVAREZ- KINGMAN

Project Manager

PROFILE

I am an outgoing person who enjoys working with a team towards specific goals. My problem solving and communication skills are best suited for situations in which a major change is occurring or needed however, I do thrive in situations where I am asked to return to the same position on an annual or semi-annual basis. I most enjoy working with fellow creators and entertainment professionals but have taken jobs in the corporate sector with great success. I look forward to meeting your team.
